

# NATIONAL CESAR E. CHAVEZ BLOOD DRIVE CHALLENGE

**SCORING INSTRUCTIONS:** The **RED** numbers are Points earned based on a 20-1 scale in each of (10) data point categories; 20 points going to the 1st (most) place scaling down to 1 point to the 20th place within each data category; then accumulated points are added for a school score  
 Blood drives that accumulate the most points are typically larger blood drives, do more than one day, surpass their own set goals, and successfully report complete results data on time.

Note: Displayed data is reported primarily by the registered Student Organizer of each participating campus using the honor system by June 1st

Included Bone Marrow Registry!
